In 2009 SATECappointed Hitec Exports to be a distributor in the UK. SATEC is a global leader in the research,development and manufacturing of energy management solutions. With two decades of rich experience in energy management,our team has the technological expertise to deliver flexible solutions for customer applications worldwide.

A Unique Segment. When it comes to energy management, the public sector is quite unique within the range of energy consumers. Industrial facilities have a clear demand for lowering energy spending which is often the largest ...

SATEC is a developer and manufacturer of specialty solutions for power measurement and power quality monitoring. The company"s range of products includes traditional 3-phase power meters for real-time power measurement and data-logging, revenue meters (electricity meters), power quality analyzers and a software suite for energy management and billing. With headquarters in Jerusalem, Israel and subsidiaries in Union,

New Jersey and in PRC, SATE...

Power: True RMS volts, amps, power, power factor, neutral current, angles and unbalance for voltage and current, frequency, symmetrical components and many more; Event and parameter data-logging; Sampling frequency: up to 1024* samples per cycle; KYZ or KY output and LED indication for calibration and test (via optional display)

Cost-effective: saves drastically on installation costs and space occupied by dozens of legacy meters. Multi-circuit: multi-load metering. up to 12 three-phase loads; up to 34 single-phase loads; various combinations of the two; Revenue ...

For over a decade SATEC has pioneered the implementation of this advanced communication protocol, starting with its flagship, the PM180 power quality analyzer. Ever since, SATEC has set the goal of implementing IEC 61850 in its leading products, new releases, as well as legacy products. See below SATEC products featuring IEC 61850.

Based on the PRO Series meters, SATEC provides a unique comprehensive solution for DC metering. The current sensing technology used by the PRO is that of Hall Effect Sensors. The voltage reading is performed by direct measurement, rated up to 820V DC. The challenges that arise in this application: Hall Effect Sensors require an external power ...

SATEC Powerful Solutions España, Enertronic S.A. es el actual distribuidor oficial de SATEC Powerful Solutions en España desde el año 2017. Acceda a la completa gama de analizadores de redes que SATEC Powerful Solutions España puede ofrecerle, una gama amplia de soluciones en medida de parámetros eléctricos, calidad de suministro, analizadores de redes, ...
