Our engineers install high performance JA Solar and Sun Power solar modules together with Solar Edge optimisers and inverters.

Is it time to install solar panels in the Manx?
Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

o In December 2020, the Isle of Man Government launched its Future Energy Scenarios (FES) ... Intermittent renewables are sources of generation powered by natural resources i.e. wind, tide and solar. The power output (or availability) of these generation units is highly dependent on prevailing weather

The 26MW Billown Solar Farm in Malew, near Castletown, would certainly produce enough power to fulfill more than 5% of the Isle of Man"s power demand, when functional in 2024. Island residents are being asked for their views on the new facility which would be improved 84 acres of farming land to the west of Malew Road (A3) and south of Douglas ...

Planning & Building Control Isle of Man website Fossil fuel heating systems From 1 January 2024 plans for new buildings seeking Building Control authority approval need to feature greener, low carbon heating systems.

Even on those cloudy days in Isle of Man, the sun is still there and your solar panels will still be collecting energy. The best spot for your solar panels to be placed are, of course, in a southern exposure. That"s where you have the most sun all day long. And once those panels are in place, they will do the work for you.
