The solar industry in Israel is not a big market in terms of solar installations like in Europe and the US, but its huge market in terms of technology and opportunities. Since the government law on 2008, thousands of installations of 5 KW up to 50 KW are taking place daily and the local companies are working above 100% capacity.

The atmospheric plasma cleaners become more and more popular solution where only local plasma treatment is required. PicoTech offers its complete suite of sales and after sales support to manufacturers as their extension in Israel. PicoTech LTD is official relyon plasma sales partner for plasma technology and surface treatment in Israel.
