The Quality Solar System reps. felt that as a "top of the range" brand, we had made the right choice. We opted to have the inverter installed inside the garage. There was the usual "mess" from the drilling of the garage wall for the inverter and associated switch but everything was left "spick and span" at the end of the installation.

The ...

leading EPC company in Israel in its field and has extensive experience in installation of grid-connected and off-grid solar systems, tailored to every building, with maximum attention given to carrying out installations
