Ivory Coast alliance solar

Will Ivory Coast get a 52 MW solar plant?
The Ivory Coast government has signed an agreement with infrastructure investor PFO Africafor the financing,construction and operation of a 52 MW solar plant. The project has been billed as the country's largest to date.

Which companies are developing solar power plants in Ivory Coast?
The Egyptian company Elsewedy Electric is also among the potential developers of the Laboa and Touba solar plants. The same goes for Infinity Power Holding and Nareva Holding, the subsidiary of the Moroccan group Al Mada. The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast.

Will IPPs build solar power plants in Ivory Coast?
The selected IPPs will build solar power plantscapable of delivering 60 MWp to the national grid in Ivory Coast. The solar plants are being built under the "Scaling Solar" program,an IFC initiative to leverage public-private partnerships (PPPs) for the rapid construction of solar power plants in developing countries,particularly in Africa.

When will Ivory Coast's solar power plants be built?
The minister said that contracts are currently under review for the construction of other solar power plants,with a cumulative capacity of 600 MW. Commissioning of these projects will take place in 2025 and 2026. Coulibaly said the Ivory Coast's installed solar capacity currently stands at 2,907 MW.

How many MW of solar power did Ivory Coast have in 2021?
According to the International Renewable Energy Agency (IRENA),Ivory Coast had 13 MWof cumulative solar capacity in 2021. This content is protected by copyright and may not be reused.
