Jamaica akku grain

Does Jamaica have a wheat market?

Source: Statistical Institute of Jamaica (STATIN). Wheat flour is a major staple in Jamaica, with the country listed among the highest per capita consumers of flour and flour-based products in the world. This provides an important wheat market for U.S. suppliers.

What is Jamaica's Agricultural Policy?

Jamaica's agriculture policy seeks to diversify the production of agricultural goodsto build self-sufficiency,promote exports,and service the growing tourism industry. Jamaica's challenge is the inability to produce significant quantities of consistent high-quality agricultural goods.

What foods are made in Jamaica?

Chickenis primarily produced locally due to high import duties,although necks and backs may enter duty-free. Goat meat is also a principal component of local cuisine. Mutton and goat imports have been growing in importance among Jamaicans,but this market is price sensitive.

What fruits & vegetables can be imported into Jamaica?

Importation of certain fruits (apples,pears,strawberries,plums,kiwis) and vegetables (broccoli,asparagus,spinach) is expected to continue to grow as there are few suitable areas to successfully cultivate these crops in Jamaica.

Why is Jamaica a good destination for US suppliers?

Jamaica's agriculture (food and beverage) market represents strong business opportunities for United States suppliers, particularly since the island's tropical climate and diversified topography incentivize the production of crops that differ from those grown in the cooler climates of the United States.
