Jamaica gbu energy solutions

Is MPC energy leased land in Jamaica for a solar power plant?
Europe-based global clean energy firm MPC Energy Solutions,which is listed on the Oslo Stock Exchange in Norway,is reporting that it has leased several acres of land in Jamaicaas part of a major project to develop a 72.5-megawatt,MW,solar power plant here.

What is the nature of Jamaica's energy sector?
Jamaica's energy sector has been marked by high dependence on imported petroleum products,with 94 percent of all energy used coming from imports in 2008. The sector was also a combination of various private and public entities,leading to intricate decision-making processes and coordination challenges.

Could Jamaica have been able to achieve its goals without oil?
The Government of Jamaica recognized that they could not have achieved their energy efficiency and security goals to the extent noted without decreasing their oil dependency,which decreased from 95 percent (2010) to 71 percent (2017),and is expected to fall further,to approximately 50 percent,by the end of 2019.
