Zetara offers a 1.2kW/1.5kWhportable power station and is mainly used in outdoor living scenarios. It mainly consists of a battery module, BMS, inverter and control panel, which can realize effective charging and discharging through the synergy of all system components.

The entire power sector is financed from the total revenue collected by Kenya Power from its retail tariff which is set and approved by the ERC. Technical Loss Technical losses occur naturally and consist mainly of power dissipation in electricity system components such as transmission and distribution lines, transformers, and measurement systems.
