La Comisión Reguladora de Energía Eléctrica reportó que el costo promedio de generación de Honduras fue de $0.1273 el Kilowatt hora. Según estimaciones realizadas utilizando los boletines estadísticos de la ENEE, el precio promedio que la ENEE cobró a los consumidores finales fue de 19 centavos de dólar el KWh. Cabe resaltar que en el caso de la ...

In Honduras, there is great potential in untapped indigenous renewable energy resources. Due to the likely long-term trend of high oil prices, such resources could be developed at competitive prices. However, except for the large hydro projects, the potential for the development of renewable energy has yet to be explored.
