Kosovo mundosolar

How much solar power does Kosovo have?

Kosovo had just 7 MWof installed PV capacity at the end of 2019,according to the International Renewable Energy Agency. The country recently raised its renewable energy target to an additional 400 MW of capacity by 2026. That would be enough to meet a quarter of its power demand and would reduce dependence on aging coal-fired power plants.

Will a 150-megawatt solar farm be built in Kosovo?

PRISTINA, May 19 (Reuters) - A group of international and local investors have started to build a 150-megawatt (MW) solar farm in western part of Kosovo as the Balkan country is trying to phase out its dependence from coal. The Solar Energy Group Europe (SEGE) consortium plans to start production within 12 months.

Where will a solar plant be built in Kosovo?

The solar plant is planned to be built in southwestern Kosovoand to come online next year. The CEO of KOSTT,Mustafa Hasani,left,and the director of Solar Energy Group Europe sh p k,Egbert Schnuse. Image: KOSTT

Will Kosovo's first large scale solar park be built?

No further details were revealed on the project. When built,the plant will be Kosovo's first large scale solar park. The Kosovar government has made several attempts to support small sized and utility scale solar in the past. These efforts,however,have produced little results to date.

When will Kosovar's first large scale solar plant be built?

The plant is scheduled to begin commercial operations in 2022. No further details were revealed on the project. When built,the plant will be Kosovo's first large scale solar park. The Kosovar government has made several attempts to support small sized and utility scale solar in the past.

Where does Kosovo get its electricity?

Most of Kosovo's electricity is supplied as imports or from two lignite-fired thermal power plants,the 40-year-old Kosovo A Power Station (with a 345 MW generation capacity) near Pristina,and the upgraded,27-year-old Kosovo B Power Station (540 MW) in Obilic.
