What is Kosovo's solar energy project?
The project is the largest solar energy investment in the district heating sector in the region and one of the largest solar power plants in Europe. As such,the project marks an historic moment on Kosovo's path towards a decarbonised energy system in line with the Paris Climate Agreement.

Will Kosovo become the first economy to use solar power?
Kosovo will become the first economy in the Western Balkans region to use solar power to heat homes. The Ministry of Finance,Labour and Transfers signed a financing agreement on the Solar4Kosovo district heating project on behalf of Kosovo in Pristina today.

How much solar power does Kosovo have?
Kosovo had just 7 MWof installed PV capacity at the end of 2019,according to the International Renewable Energy Agency. The country recently raised its renewable energy target to an additional 400 MW of capacity by 2026. That would be enough to meet a quarter of its power demand and would reduce dependence on aging coal-fired power plants.

How much will Germany contribute to Kosovo's solar energy project?
The EU's contribution to solar heating and electricity projects in Kosovo will total almost EUR56 million. "Germany has supported Kosovo in its transition from coal to sustainable energy and decarbonisation in accordance with the objectives of the Green Agenda for the Western Balkans," said Germany's Deputy Ambassador to Kosovo Matthias Conrad.
