Is litime a good battery?

New battery in no time ... LiTime is goodfor many reasons,and is pretty much the only battery I buy ... this particular thread has some interesting flow of how things can go wrong,and not necessarily because of the battery vendor ... just insert panel in place of battery,and replay the thread again. Are litime batteries self-heating?

After watching a lot of Williams videos I settled on LiTime's self-heating batteries. The batteries arrived around the 1st week of April. I brought the batteries to our shop and prepared our equipment for the electrical system. The 3rd week of April I attempted to install one battery and test the electrical system.

Should litime eat a battery?

I am not so sure that LiTime should eat a battery because someone didn't follow the shipping receive process ... the process is pretty much the same for any vendor ... receive the product from the shipper, inspect it, and if damage, note it and start taking pics.
