Lucy energy Western Sahara

Is Western Sahara supplying half of Morocco's wind and solar energy?
Western Sahara Resource Watch,a Brussels-based NGO allied to the independence movement,estimates that by the end of the decade occupied Western Sahara could be supplying half of all Morocco's wind energy and a third of its solar energy,much of it headed for Europe.

Could large solar farms in the Sahara Desert redistribute solar power?
Large solar farms in the Sahara Desert could redistribute solar powergeneration potential locally as well as globally through disturbance of large-scale atmospheric teleconnections,according to simulations with an Earth system model.

Is the Sahara based on economic resources?
The idea of the economic viability of the SADR being based on its economic resourcesis also found in Shelley (2004) and echoed by MINURSO and UN Special Envoy to the Sahara,James Baker. Kingsbury (2015) establishes that Western Sahara is illegally and militarily occupied by Morocco.

Is natural resource exploitation a problem in Western Sahara?
As the issue of natural resource exploitation in Western Sahara has been conceptualised in very different ways and from the perspectives of a variety of disciplines, the authors have opted for a semi-systematic review of the work done encompassing academic, non-academic, and activist backgrounds.

How interdisciplinary is research on natural resource exploitation in Western Sahara?
The production of research on natural resource exploitation in Western Sahara is accelerating. Yet this field remains interdisciplinary,and the work is carried out by researchers from academic,non-academic,and activist backgrounds,with sometimes very different aims and envisaged audiences.

Can large-scale solar farms influence atmospheric circulation in the Sahara Desert?
Our Earth system model simulations show that the envisioned large-scale solar farms in the Sahara Desert,if covering 20% or more of the area,can significantly influence atmospheric circulationand further induce cloud fraction and RSDS changes (summarized in Fig. 7) across other regions and seasons.
