Historically, energy has been a stronghold of state-owned companies, such as UTE and ANCAP.The National Directorate of Energy (Spanish: Dirección Nacional de Energía) is the main governmental body in charge of energy policies.[2]The Global Economic Crisis of 2008 made many of the materials to produce renewable energy cheaper, therefore Uruguay decided it ...

We don"t know the competitor digital energy management systems, but Lumian Internet of Things Energy Platform is a platform that lightens the load of its users, is open to continuous development, and allows you to quickly develop any application you need on it without writing code. You can track and report all processes related to energy in ...

The Lumian EoT(Energy of Things) Platform can integrate with any OSOS (Automatic Meter Reading System) system located in Turkey. Without any additional hardware investment, the platform can collect and analyze electricity and natural gas consumptions. The Platform"s capabilities allow ERP and MES integrations, device based tracking and remote ...
