Great success was achieved by Aeson Power in the field of Design-and-Construct of Lithium-Ion battery energy storage systems - BESS. Most of our BESS were designed for solar power, and traditionally most of the grid-connect or off-grid systems are using the voltage of 48V.

From September 9 to 12, Aeson Power participated in RE+ 2024 at the Anaheim Convention Center, North America"s largest clean energy event. During the exhibition, we showcased our latest energy storage solutions, designed to meet the demands of residential, commercial and industrial, and utility-scale applications.
