Mfins solar Tokelau

An off -grid solar energy system is currently in operation, and was design and constructed, in collaboration with the local Tokelau community, by private companies and development organisations. Population: 1,499 (2016) Area: 10 km 2 (3.9 sq mi) Link: The world"s first truly renewable energy nation

Tokelau was the first nation in the world to go 100% solar in 2012. Now the country is aiming to keep its fully renewable energy status in the future using wind power. This is going to reduce the need for diesel fuel backup in prolonged times of cloudy weather, and when the solar cell system needs maintenance.

"Solar Power in Tokelau" includes the following features that help develop the reading behaviours expected at Gold. This report highlights the world-first achievement of Tokelau in using renewable energy sources (solar energy and coconut oil) for all its electricity. It explains why Tokelau decided to switch from using fossil
