Micronesia smartone solar

What is SmarTone solar?

The SmartOne Solar is the next generation of Globalstar's industry-acclaimed SmartOne product line. While operating on one of the most modern and fastest satellite networks in the world and powered by the sun,this IoT device provides excellent remote monitoring and tracking capabilities.

Is SmarTone solar a safe & maintenance-free IoT asset tracking device?

Solar powered and designed for tough environments,this industrial IoT asset tracking device is intrinsically safeand maintenance free for tracking,monitoring and data collection. SmartOne Solar's integrated solar panel and battery capabilities deliver up to 10 years of life with little to no maintenance required.

Is SmarTone solar safe?

SmartOne Solar is the only solar asset tracker certified as Intrinsically Safewith ATEX Zone 0 and HERO (Hazard of Electromagnetic Radiation to Ordinance) certifications for hazardous environments.

How long does a SmarTone solar battery last?

SmartOne Solar's integrated solar panel and battery capabilities deliver up to 10 yearsof life with little to no maintenance required. This asset GPS tracking device easily mounts to any fixed or mobile asset for intelligent tracking,monitoring,and integration with a multitude of wireless sensors through the configurable BLE Sensors interface.

What certifications does the SmarTone solar have?

The SmartOne Solar has unparalleled safety/device certifications such as ATEX,IECEx,IP69/69K,HERO certifications,and others. Helpful content that will help you make more intelligent decisions.

What does rtone Solar do?

rtOne SolarTMSmartOne SolarTM - Solar Powered Satellite Asset Tracking DeviceTra portation: Monitor &track assets and fleet movements even in remote loca ons.Oil &Gas: Aids in mobilizing &deploying high value assets in the field. Construction: Determine if,when &where your valuable equipment is being used.Security
