Mobile photovoltaic system Guatemala

As part of its evaluation process, BMR determined that the solar farm offered a strong return that was supported by Guatemala"s well-established and stable regulatory system. BMR navigated a complex and cooperative sales process that involved four owners across three legal jurisdictions.

Enerland, a Spanish company, has announced its expansion in the Guatemalan renewable energy market with the inauguration of its headquarters in the country and the start of construction of its first photovoltaic (PV) plant, Magdalena Solar, with a capacity of 66 MWp.

The Company issued a limited notice to proceed to the project"s turnkey EPC contractor and thereby secured very competitive prices for PV modules and other critical equipment required ...

Low-carbon energy infrastructure developer MPC Energy Solutions (MPCES) announced today the start of construction works on a 65-MWp solar project in Guatemala, the largest project in its portfolio so far.
