# Nauru energy well p6

Does Nauru have an energy road map?
Currently Nauru is working on an Energy Road Map,including action plans for the development of renewable energy and energy efficiency sufficient to significantly lower imports of diesel fuel for electricity generation.

What type of energy is used in Nauru?
Renewable energyhere is the sum of hydropower,wind,solar,geothermal,modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal,crop waste,and other organic matter - is not included. This can be an important energy source in lower-income settings. Nauru: How much of the country's energy comes from nuclear power?

Why is Nauru so vulnerable to solar energy?
Solar energy is the only proven renewable energy resource which could be utilised in short to medium term to reduce dependency on fuel imports for electricity generation. The country's vulnerability is also increased by its isolation from other Pacific Islands. In 2012,SPC released an energy profile of Nauru based on 36 energy security indicators.

Does Nauru use diesel fuel?
Diesel fuel and petrol are stored and distributed by NUC to all users except RONPHOS who maintains a separate diesel fuel storage facility and often purchases and imports diesel for their industrial use. Jet fuel is used only by the national airline,  9 From circa 2005 to 2009 Nauru experienced scheduled rolling black-outs.

How did Nauru get its electricity & water services?
Until 2005,the Nauru Phosphate Corporationprovided all the island's electricity and water services. In 2005 the Nauru Utility Authority (NUA) was formed to separate the water and electricity utilities function from the phosphate corporation. It was later decided to corporatize NUA and the Nauru Utilities Corporation (NUC) was created.

What does imported energy mean for Nauru?
Imported energy for Nauru means fossil fuel imports. Unambiguous records of the quantity of fuel imports,their timing and the specific type of fuel imported are vital to the determination of the Nauru energy balance.

The Nauru Energy Road Map (NERM) 2014 - 20201 was developed during 2013 and built upon ... The purpose of the Development Strategy and Energy Policy Framework as well as the NERM is to enable the achievement of Nauru"s overall vision of: A future where individual, community, business and government partnerships contribute to

Renewable Energy Opportunities and Challenges in the Pacific Islands Region: Nauru 3 2. Energy landscape

under the Nauru integrated planning approach and in consultation with various stakeholders. It aims to provide a guideline for the development of the energy sector of Nauru. The policy framework was adopted in
