Reducing poverty in Nicaragua requires special attention torural areas because the majority of Nicaragua"s poor live in the countryside. Improving access to electricity in those areas is key to economic growth and increased quality of life. In Nicaragua, three quarters of the rural population have no electricity service.

As you are the one to show up, you might get years of build up from some people and that can be on a daily basis. I worked with Grid One Solutions for roughly 5 years and by the end of my time there, my work schedule no longer worked with my personal schedule and hence the split. Great company to work for as there is the possibility to move up ...
