Technaus Solar is an Australian owned and operated renewable energy companyspecialising in solar power and battery storage technology across Australia. With a reputation as a pioneer within the renewables sector,Technaus has been a market leading solar energy company for over 15 years.

Is technaus a good company?

Hi Charles, Fantastic to hear your experience with Technaus and in particular Steve, has been excellent. Steve is definitely your man when it comes to sound and objective advice for a solar installation. Steve and the team don't do just one product and try and push it. Every household is different, and all customers needs can be quite varied.

Did technaus Pty Ltd provide a sale contract with terms and conditions?

Technaus Pty Ltd did notprovide a sale contract with terms and conditions Technaus Pty Ltd has avoided to provide me its written guarantees for workmanship with terms and conditions.

Does technaus provide a warranty?

Technaus Pty Ltd has avoided to provide me its written guaranteesfor workmanship with terms and conditions. Technaus Solar is a member of Clean Energy Council,but it also fails to provide required documentations as printed on page 17 of Guide to installing solar for household,published by that council.

Should I accept a quote from technaus?

If considering accepting a quote from Technaus, I would insist upon an installer viewing the roof and providing an opinion on panel placement and panel size before accepting the quotation. Panel location is very important in order to maximise output and unfortunately in my case this did not occur. Hi Barry, thanks for your review.
