Explore the BSLBATT ESS-GRID Cabinet Series, an industrial and commercial energy storage system available in 200kWh, 215kWh, 225kWh, and 245kWh capacities, designed for peak shaving, energy backup, demand response, and enhanced solar ownership, while supporting grid-tied, off-grid, and hybrid solar systems and pairing with diesel generators.

The energy storage system is connected to the AC bus (AC BUS) to improve energy utilization efficiency and balance the production and supply of the power system. Features. Based on the energy storage system, the auxiliary equipment of the station can be operated independently of the mains power to reduce the impact on the grid operation.

Small smart energy cabinet HJ-SG-S type: tower/wall-mounted installation, small size, modular design, this series of products can integrate photovoltaic, wind clean energy, energy storage batteries, configuration 2U integrated hybrid power system, output DC48V (Including intelligent circuit breaker), including ODF module, FSU monitoring module integrated product.

Huijue Group"s industrial and commercial energy storage system adopts an integrated design concept, integrating batteries in the cabinet, battery management system BMS, energy management system EMS, modular converter PCS and fire protection system. ...
