Norfolk Island evklips energy

We believe in green energy; we know renewables; we build the future! Evklips Group consists of four companies, each specializing in a particular service. All four carry our strong corporate culture while remaining sensitive to the respective market requirements.

Evklips Energy is a privately-owned Bulgarian company, specialised in the construction of different types of solar photovoltaic power plants: ground mounted, rooftops, carports, agri-PV and floating-PV.

Norfolk Island Regional Council has installed 880 solar panels on the island so far, coupled them with a two-kilowatt Tesla Megapack large-scale rechargeable lithium-ion battery station, and additional megawatt batteries around the island to create a microgrid.

In late 2021, Incite Energy were appointed to review the operations and systems within the Norfolk Island Regional Council (NIRC) electricity business unit (NI Electricity) and implement changes to transition the island to an electricity grid dominated by renewable energy, allowing electricity tariffs to be reduced.

Norfolk Island Regional Council has installed 880 solar panels on the island so far, coupled them with a two-kilowatt Tesla Megapack large-scale rechargeable lithium-ion battery station, and additional megawatt batteries ...
