What makes Northvolt a good battery manufacturer?
Cell technology. For land, air and sea. A battery cell manufacturer at heart, we're working with three kinds of chemistry -- enabling us to deliver battery solutions for virtually every corner of electrification. A foundation to Northvolt's low-carbon footprint comes from a commitment to power battery manufacturing with 100% fossil-free energy.

Could Northvolt be a big EV battery company headquartered in Europe?
Northvolt has been their best shot at building a big, thriving EV battery business headquartered in Europe. Were the company to fail, ongoing progress in battery technology could make it even harder for another European company to attempt the same feat.

Does Northvolt have a production target?
It did not elaborate on its current production targets,which it said are based on contracted customer deliveries. Hailed as Europe's best chance to weaken China's overwhelming dominance of the electric vehicle (EV) battery market,Northvolt fired a fifth of its global workforce and shrank its operations in September to stay afloat.

Can Northvolt compete with other Chinese battery makers?
If it was going to have a chance of competing with Contemporary Amperex Technology Co. and other Chinese battery makers, Northvolt needed to grow fast. The company amassed billions of dollars in debt and equity, secured using $55 billion of contracts from some of Europe's biggest car and truck makers.

Is Northvolt Europe's best chance to weaken China's EV market?
Hailed as Europe's best chance to weaken China's overwhelming dominance of the electric vehicle (EV) battery market, Northvolt fired a fifth of its global workforce and shrank its operations in September to stay afloat. The Swedish company, led by former Tesla executive Peter Carlsson, has yet to make a profit.
