Open solar Laos

Is SolarSpace launching a 5GW high-efficiency solar cell plant in Laos?
SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar cell plant in Laos, giving momentum to its overseas production capacity. SolarSpace marked the start of the first phase of its 5 GW high-efficiency solar cell plant in Laos at a recent launch event in the Saysettha Development Zone.

Why is SolarSpace launching a solar project in Laos?
The company said it has an experienced production and management team in Laos, and those people will play a leading role in the development of the nation's clean energy industry. Laos is a new manufacturing location for SolarSpace, which has traditionally been more active in solar projects in the country.

Does Laos have a solar sector?
The news is also a positive development for the Laos solar sector. Last year,the country began construction on its first large-scale solar farm,a 50MW project in the south-east province of Attapeu,and the government has already made plans to expand its solar sector further.

How long does it take to build a solar farm in Laos?
The construction will be carried out in three phases over a decade,with the initial phase focusing on connecting the solar farm to the Nam Ngum 1 Basin. While challenges lie ahead due to the unique location,the project signifies a remarkable step towards sustainable energy production in Laos.

Is Laos a good country to invest in solar?
The government aims to increase the contribution of renewables to 11% by 2025,and while SolarSpace did not specify where its Laos-made modules would be shipped,the presence of a major manufacturing facility in the country is an important step in demonstrating the viability of Laos as a country capable of significant solar investment.

Will SolarSpace be able to meet growing demand for solar modules?
SolarSpace will be hopefulthat by expanding its manufacturing capacity of either type of module,it will be able to meet growing demand for modules in the global solar sector. The news is also a positive development for the Laos solar sector.

Chinese PV cell and module manufacturer SolarSpace has started cell production at its latest manufacturing facility, a 5GW factory in the Saysettha Development Zone in Laos, near the Thai border.

The LaotianTimes- The Government of Laos has signed an agreement with Muang Khong Clean Energy to build a solar power plant at Khong District, Champasack Province. The project has now completed a feasibility study, and will become the first installation in Laos to export solar energy to Cambodia.Keep
