Silicon Island is an innovative and sustainable development poised to become a key engine of economic growth in the region. The Green City of the Future is designed to support the growth of high tech electrical and electronics (E& E) industry, while serving as a dynamic hub for international investments, trade, business services, tourism and leisure for the region.

Various forms of evidence show the earliest settlers of the Pitcairn Islands were Polynesians who occupied Pitcairn and Henderson for several centuries until the islands were abandoned: Henderson most likely before the 16th century and Pitcairn in the 17th or early 18th century. The islands were uninhabited when they were discovered by Europeans.
