Platform energy Lebanon

What are the energy data based on in Lebanon?

The energy data employed by this study was largely based on two reports published by the Lebanese Centre for Energy Conservation (LCEC), namely the NREAP 2016-2020 (LCEC, 2016) and The First Energy Indicators Report of the Republic of Lebanon (LCEC, 2018). 1. Primary energy supply Lebanon relies on imports to satisfy its energy demand.

How many NEEAP initiatives are there in Lebanon?

The first NEEAP for Lebanon introduced fourteen initiatives in 2010 related to renewable energy and energy eficiency, combined. The most successful was initiative 11, which introduced the National Energy Eficiency and Renewable Energy Action (NEEREA) dedicated to distributed solar applications.

How does energy affect Lebanon's economy?

Energy and electricity demand have weighed heavily on Lebanon's economy. Imported fuel oil accounts for nearly a quarter of the national budget deficit,while electricity demand outpaces power generation capacity. Renewable energy technologies,in contrast,offer the prospect of clean,fully domestically sourced power and heat systems.

Can IPP participate in the production of electricity in Lebanon?

In 2002, the GoL issued Law 462 which stipulates that IPP can participate in the production of electricity through licenses awarded by an Energy Regulatory Authority (ERA) (MEW, 2002). While Lebanon ratified legal and policy frameworks to grow renewable energy, Mr. Allaya asserts "we need stronger implementation mechanisms to attract investors".

What fuel does Lebanon use?

Lebanon currently relies on gasoline,fuel oil and gas oil,which are 100% imported. Energy security concerns,combined the need to support economic growth,have driven an energy diversification strategy.

Can Lebanon generate 30 percent of its electricity from renewable sources?

Lebanon has the potential to generate up to 30 per cent of its electricity from renewable sources by 2030,according to a new report published by the International Renewable Energy Agency (IRENA).
