Welcome to Rhino ONWARD International! We are a design/build powerplant developer providing the development, construction, and maintenance of our Solar-based Power Plants for our clients as well as provide electricity to the wholesale power market, the "grid."

Rhino Onward International (ROI) is an independent developer of low-carbon alternative energy solutions. It creates cradle-to-grave renewable energy by harvesting solar energy and brackish (non-potable) water to generate electricity, green hydrogen, and clean water.

Who is Rhino Onward? We provide solutions that help combat the negative impacts of climate change. With societies around the world maturing there is an increasing demand of energy. Climate change threatens our

societies and environment.

Frost offered an example. Two people on a Jamaica retreat he organized had invested a combined $500,000, he said, into his and his business partner Paul Croft"s green energy company, Rhino Onward International. "That goes directly to us," Frost told his accounting firm"s staff. "So, it"s part of our revenue generation now.
