Rhino onward RÃ©union

Among them was Rhino Onward International, a fledgling Chicago-based company with ambitious plans for a green hydrogen plant in Arizona. As far as its former CEO Brian Kawamura knew, Croft and Frost were the green energy company"s sole owners, he said.

Rhino Onward International (ROI) is an independent developer of low-carbon alternative energy solutions. It creates cradle-to-grave renewable energy by harvesting solar energy and brackish (non-potable) water to generate electricity, green hydrogen, and clean water.

CEO of Rhino ONWARD International (ROI) is a seasoned executive with over 39+ years as a highly motivated and experienced executive leader with a proven history of meeting and exceeding all business metrics and financial objectives within the Telecommunications, IT, Energy, Media, Software, Security, Financial, Data Storage and Technology ...

This early work led to Aaron being hired full time with Rhino Onward International (ROI) in early 2022. Aaron"s lifetime cultural commitment to climate change drove him to integrate leading technology and built a process for producing Hydrogen with Solar energy.

Welcome to Rhino ONWARD International! We are a design/build powerplant developer providing the development, construction, and maintenance of our Solar-based Power Plants for our clients as well as provide electricity to the wholesale power market, the "grid."

Who is Rhino Onward? We provide solutions that help combat the negative impacts of climate change. With societies around the world maturing there is an increasing demand of energy. Climate change threatens our societies and environment.

Welcome to Rhino ONWARD International. We create the greenest and cleanest cradle-to-grave renewable energy by harvesting Solar Energy and brackish (non-potable) water to generate electricity, green hydrogen, and clean water.
