Rho motion Isle of Man

Founded in 2018, London-based Rho Motion provides forecasts and analysis across the energy transition landscape. By integrating Rho Motion"s capabilities, Benchmark will now offer enhanced supply chain visibility as it continues to set reference prices for lithium and other key battery raw materials and chemicals.

Read: Rho"s Key Takeaways From COP28 Energy storage and clean grids. The COP29 Presidency announced a pledge to increase global energy storage capacity to 1,500GW by 2030, six times the 2022 levels, and to add or refurbish 80 million kilometres of power grids by 2040.

Published biannually, the Rho Motion Magazine provides comprehensive coverage of the EV, Battery and Charging markets. The purpose of the magazine is to draw attention to issues that we feel are important to the progress of the energy transition, with a focus on EV, ESS, charging and battery technology developments.

Rho Motion offers the most comprehensive and well-informed forecast and analysis for the Electric Vehicle industry, linking battery pack to Electric Vehicle platform. Our rigorous analysis interrogates each point in the Electric Vehicle supply chain.
