This ESM 48100A1 was certified with an upper charging limit of 55 V. The recommended float voltage is 53.5 V. If 70 V work, good for you, but it"s not something I"d do if I could avoid it. The 8 unit parallel limit is if you connect their BMSes with the RS485 interface. If you use the CAN interface you can connect up to 32 in parallel.
