"We got our first bill with solar installed and we went from about $400 bill to $65..

Are green home systems a good company?

Green Home Systems:Seem to have a higher turnover for contacts. I had several. Plan for getting panels to property was a bust and needed some assistance on my part. That said,quality product,customer service was great,and timelines were acceptable. Installer:Sucked on almost every level...no other way about it.

Why did green home systems choose SRECs?

Only reason this is here is because I'm sure they were lowest bidder, and Green Home Systems (or Green Solar at the time) chose them SRECs:This was more associated with Carbon Management Solutions Group. Took a while for check, and was bumped from initial estimate of value by almost 50% (not quite, but close)

In December 2016, Government of Samoa received financing from the Green Climate Fund to undertake the Integrated Flood Management to Enhance Climate Resilience of the Vaisigano River Catchment in Samoa project.
