Serbia intersect power

Are Serbia's neighbours using nuclear power?

Arbutina points to the use of nuclear power by many of Serbia's neighbours,including Hungarywhich has an active reactor just 80 kilometres (50 miles) from its northern border. "We are in the same risk zone as Hungary,Romania and Bulgaria,but they benefit from their nuclear plants,while we get nothing," Arbutina added.

What do Serbians think about nuclear power?

A survey published by the Serbian-based think-tank,New Third Way,said one-third of the people it polled remained opposed to nuclear power,while roughly the same number supported it,with the others largely undecided. The study also found that 64 percent of respondents agreed that Serbia should gradually phase out the use of coal.

What is the energy sector in Serbia?

The energy sector stands as a pivotal industrial sectorwithin Serbia. Due to limited domestic reserves of oil and natural gas,the nation relies significantly on the importation of crude oil and natural gas. The current contribution of renewable energy sources to the overall energy consumption is below 1%,not including hydropower.

Does Serbia have a coal-fired power plant?

It has come at a cost. Nearly 70 percent of Serbia's electricity comes from coal-fired power plants,which caused an estimated 15,000 deaths in 2021 alone linked to pollution,according to a report by the European Environment Agency.

What is Serbia's energy situation?

Within the intricacy of Serbia's energy situation, the implications run deeper than initially can be perceived as holding profound significance not just for the nation but also for the broader geopolitical landscape in the context of the Russia-Ukraine conflict. The energy sector stands as a pivotal industrial sector within Serbia.

How will Russia and Ukraine affect Serbia's energy sector?

The ongoing war between Russia and Ukraine may continue to influence the Serbian energy sector by affecting supply chains and source costs. Serbia's future energy strategies will need to remain adaptable to geopolitical shifts while emphasizing sustainability and security.
