Seven ss solar Suriname

We have supplied hundreds of solar products in Kenya and East Africa being solar water heaters, solar flood lights, solar street lights and solar garden lights. There is a seven stars product being installed every working day in Kenya.

Seven SS Stars Solar Thermal Systems, a distinguished name with over 15 years of expertise, stands at the forefront of designing and producing top-tier solar water heaters. We are committed to delivering unparalleled quality and innovation in the realm of solar energy solutions.

Solar sizing takes into account available space for PV panel installation. Whether it"s rooftop solar, ground-mounted arrays, or building-integrated photovoltaics (BIPV), accurately sizing the system ensures efficient utilization of available space.

Invest in high-quality Seven SS Stars solar panels for your energy needs. Our panels are known for their durability and efficiency, providing a reliable source of clean energy. Available in different sizes and capacities to suit both residential and commercial installations.

Our range of products include solar collector, split solar water heaters, integrated solar water heaters, vacuum tube, and flat plate solar water heaters. We have been approved by KEBS and EPRA (Energy and Petroleum Regulatory ...
