Solar carport Kenya

Africa"s largest solar carport was unveiled by Principal Secretary Eng. Joseph K Njoroge today at an opening event at Garden City Mall. The solar electricity it generates is being used by the retail tenants to power facilities ...

Africa"s largest solar carport in Kenya constructed by Solarcentury is set to be opened at the newly constructed Garden City mall. The move is set to cut carbon emissions by around 745 tonnes annually.

Solar carports have many things in common with ground-mount solar panels, which are angled panel modules installed on the ground rather than on a rooftop. Ground-mount solar and solar carports eliminate the need for a surface on which the panels can be mounted. The primary difference between a solar carport and a typical ground mount ...

Actis Kenya"s director Koome Gikunda said: "Garden City is a project with lots of firsts in this market, but we are particularly proud of the solar carport. We knew that we wanted a solar component to the project early on but the upfront costs were prohibitive." Homepage pic credit: Solarcentury
