Solar comp Guinea-Bissau

Rural Areas of Guinea Bissau are set to receive electricity through off-grid solar technologies through a project called the Regional Off-Grid Electricity Access Project (ROGEAP). ROGEAP will be implemented by the Economic Community of West African States (ECOWAS) and funded by the World Bank.

The World Bank is supporting the development of Guinea-Bissau"s first solar power plants, aiming to decarbonise electricity production and boost electrification. Under the Solar Energy and Access to Electricity Development Project, the World Bank will assist Guinea-Bissau until 2030 and has already approved a USD $30 million grant.

The World Bank, IDA, ESMAP, and GCF are funding Guinea-Bissau"s first solar power plants with a $78.15 million investment to support decarbonization and expand electricity access. The project will build solar plants near Bissau and install mini-grids on the Bijagós islands, thereby providing electricity to 1,200 households and SMEs.

International finance institution the World Bank will support the development of Guinea-Bissau"s first solar power plants with a $35 million grant through its Solar Energy Scale-up and Access project.
