Solar contact number near me Serbia

Is Serbia a good market for solar energy?
In conclusion,Serbia is still a very young but promising marketin the solar energy sector,with some fast-growing solar distributors. Many top solar distributors,solar panel manufacturers and suppliers are in partnership with European companies.

Why is solar energy becoming an attractive prospect in Serbia?
There are several reasons why solar energy is becoming an attractive prospect in Serbia,and we'll be looking at some of them. Solar solutions or projects appeal massively in Serbia because they're durable. According to research,the average lifespan of a solar panel is 20-25 years,while that of the battery and inverter is a decade.

How does the Solar System affect the environment in Serbia?
Unlike fossil fuels,the major electricity source in Serbia,the solar system has no impact on the environment. Fossil fuel consumption emits carbon dioxide,which is a greenhouse gas,into the environment. This emission traps heat in the atmosphere and causes global warming. It doesn't end there.

In May, the largest solar power plant in Hungary, built by China National Machinery Import and Export Corporation (CMC) was commissioned near the city of Kaposvar. The power plant represents a 5 % increase in Hungary"s solar capacity and it is estimated that it will reduce annual CO2 by 120,000 tons.
