Stumbled about a year ago on Solar Store online and since then I can surely admit that I now know a lot about solar energy and how I can use it to light up my home. This transfer of knowledge happened thanks to one of the company"s energetic and committed staffers, Dennis who painstakingly answered my questions and concerns.

Non-Pressurized Solar Water Heaters. Non-pressurized solar water heaters with vacuum tubes are a common type of solar water heating system. They use evacuated glass tubes to absorb solar energy and heat water. These systems rely on natural convection to circulate water between the vacuum tubes and the storage tank.

KENYA SOLAR ENERGY (KENSEN) invests in renewable energy to combat global climate change. Supported by UNEP, we generate solar power for the National Grid and offer diverse green energy solutions for private users, contributing to environmental protection and sustainability in Kenya.
