Solar new products Tuvalu

What is the Tuvalu solar power project?
The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project,which is a 40 kW grid-connected solar systemthat is intended to provide about 5% of Funafuti 's peak demand,and 3% of the Tuvalu Electricity Corporation's annual household consumption.

What was the first large scale solar system in Tuvalu?
The first large scale system in Tuvalu was a 40 kW solar panel installationon the roof of Tuvalu Sports Ground. This grid-connected 40 kW solar system was established in 2008 by the E8 and Japan Government through Kansai Electric Company (Japan) and contributes 1% of electricity production on Funafuti.

Is Tuvalu A good place to invest in wind power?
Beyond the solar farm, Tuvalu is also exploring wind energy opportunities. Preliminary assessments on several outer islands are underway to determine the feasibility of wind power. These efforts are part of a broader strategy to diversify Tuvalu's renewable energy sources, ensuring a stable and reliable electricity supply.

What is Funafuti's new solar farm?
The new solar farm,spanning several hectares and equipped with advanced photovoltaic technology,is designed to meet a significant portion of Funafuti's electricity needs. This project,funded through a combination of government resources and international grants,is set to enhance energy security and drastically cut carbon emissions.
