Who are Manx solar electrical?
Manx Solar Electrical are the Isle of Man's exclusive Stiebel Eltron service partners. We are also a Mitsubishi ASHP service partner and Dimplex approved and accredited installers. Our engineers install high performance JA Solar /REC and Sun Power solar modules together with SolarEdge optimisers and inverters.

Is it time to install solar panels in the Manx?
Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

When investigating solar panels there are many questions: how many panels can my roof take? what will they look like? the price? how much power generated? yearly returns? go green use technology to help answer these questions as accurately as possible. Contact us for a no obligation quote.

Many properties in the Isle of Man are suitable for solar PV installations and you would be surprised how much energy you can produce. Click on the pictures below and you can see how much energy the two systems generate right now!

We are the Isle of Mans leading renewable energy company and have been in business for over 15 years, we are convinced that we can offer you the products and solutions to help you to make a difference to the environment now rather than later.

Manx Solar Electrical undertakes every aspect of the installation, including annual servicing plus all requisite maintenance work. With utility prices rising and green issues climbing the agenda, there has never been a better time to invest in alternative energy sources.
