# Solargis com San Marino

Is Solargis a reliable solar database?

Multiple independent studies have confirmed Solargis to be the most reliable solar database. Quality of our data can be transparently verified at any location. Our methodologies are peer-reviewed and published. Solargis data and services are available for 99% of the world's population and cover a 30-year history.

What is Solargis analyst?

ing and project monitoring. Solargis has a genuine interest in maintaining the most accurate  y your solar  data analysisSolargis Analyst is a software for visualization,comparison,error detection,and analy is of solar and meteo data. We designed it to empower solar analysts to work with

What is Solargis data & services?

Solargis data and services are available for 99% of the world's population and cover a 30-year history. We fill the occasional gaps in the data flow thanks to our proprietary intelligent algorithms.

Solargis Monitor proporciona datos de rendimiento coherentes y precisos para cualquier ubicación y tipo de proyecto. Al utilizar datos unificados para toda su cartera de activos fotovoltaicos, puede comparar proyectos de forma eficiente y precisa, basándose en métricas estandarizadas.. Varias comparaciones independientes de bases de datos de radiación solar ...

At Solargis, we provide extensive and accurate weather information, with a specific focus on those developing or operating PV power plants. The site"s solar and weather conditions have a direct impact on the performance throughout the entire lifecycle of a PV project--from site selection to design, financing, and power plant operations and maintenance.

The standard delivery format of Solargis data files is .csv and when you open such file using excel, all data values may be in the first column. By default, all values should be in numeric format. However, if your computer recognizes "," or "comma" as the decimal character instead of "." some values may appear in date format. In such case, you ...
