Friday, 29 July 2022: Following a competitive and transparent bidding process, Eskom has awarded contracts to two successful bidders - Hyosung Heavy Industries and Pinggao Group - for the provision of battery storage solutions in terms of its flagship Battery Energy Storage System (BESS) project.The contract is for design, supply and installation as well as operating ...

The update requires a manual reset code, which must be entered into the pre-paid meter in the same way as normal recharge codes. Unless people enter the new reset code, their prepaid electricity meter will stop working on 24 November 2024. The problem is linked to the tokens prepaid meters in South Africa used to load credits.
