Our engineers use only the safest methods of calculation, to assure maximum solidity and durability of the structures. We have proprietary, recent wind tunnel tests with Western University, and we design using the latest Building Codes (ASCE-7-16, NBCC 2016, IBC 2018), as well as SEAOC PV2 notions of array size versus roof size to account for extraordinary vortices.

Opsun - Leader en structures solaires PV bifaciales | Nous offrons les meilleures structures fixes pour augmenter la performance de vos panneaux solaires bifaciaux. Nos experts vous aident à augmenter votre Retour sur Investissement.

L"expertise d"Opsun avec les panneaux solaires PV bifaciaux (tels les toits commerciaux plats, les abris d"auto commerciaux et les systèmes au sol) et les projets qui requièrent une ingénierie avancée (comme les toits ayant peu ou pas de capacité portante, les auvent surélevés au-dessus des toits, ou les structures architecturales) fait d"Opsun un partenaire stratégique de choix pour ...

Contact us to learn how you can become an Opsun distributor, so you can add our custom racking and bifacial solutions to your list of available hardware. 8975, Henri-Bourassa West boulevard Saint-Laurent, Quebec

Opsun System Inc. designs and manufactures mounting systems for PV installations for both roof top and ground mount. Its products are patented and wind tunnel tested thus meet building code requirements. With nearly 10 years of experience and several MW track record, Opsun Systems Inc. differentiates itself by offering total site support and custom project engineering including ...
