Spear power systems Marshall Islands

Who is spear power systems?
Spear Power Systems is the leader in lithium-ion battery innovation. Experience tailored energy solutions with our comprehensive services.

What makes spear power systems unique?
Spear Power Systems' energy storage systems are cell-agnosticand include proprietary battery management and monitoring for all lithium-ion chemistries from multiple battery suppliers offering high energy density,modular architecture,light weight,and extreme safety and reliability.

What's new at spear power systems?
Spear Power Systems, Inc. has some BIG news! Our CEO Jeff Kostos has this to say of the news: "The Spear team is very excited to announce its agreement to be acquired by Sensata Technologies and play a meaningful role in Sensata's electrification strategy."

Spear Power Systems, Inc. was founded in 2014 by experienced energy storage entrepreneurs Jeff Kostos, President & CEO, and Dr. Joon Kim, CTO. Spear designs and manufactures safe, reliable, high performance energy storage ...

Grandview, MO, Nov 2nd, 2021 - Spear Power Systems, Inc. is partnering with SeaBubbles to provide Trident marine battery systems for the 100% electric, hybrid hydrogen and batteries flying boat manufacturer. The "SeaBubbles" will be a first-of-its-kind water vehicle for

What is the size of Spear Power Systems? Spear Power Systems has 61 total employees. What industry is Spear Power Systems in? Spear Power Systems"s primary industry is Electronic Equipment and ...

Key components in each system are the scalable Modules (sMOD) and calable Battery Management System (s sBMS). The sMOD provides a common building block for our systems. Versa systems can be scaled from 50 VDC to 1250 VDC and are available in both air -cooled and liquid-cooled options. PERFORMANCE o 107 Wh / kg o 235 W / kg o 90 Wh / L

Sensata Technologies (NYSE: ST) today announced that it has completed the previously announced acquisition of Spear Power Systems. Spear Power Systems develops next generation scalable lithium-ion battery storage systems for demanding land, sea and air applications. Spear Power Systems" energy storage systems are cell-agnostic and include ...

Grandview, MO (August 2018): Spear Power Systems LLC (Spear) has been awarded a Phase I SBIR contract to address the Army"s requirement for a battery system that can support multiple voltages, avoiding the need for multiple fielded batteries to address multiple voltage requirements. The objective of this battery is to

address legacy platforms, as well as emerging platforms ...

The project is led by Spear Power Systems, makers of the world"s lightest, most flexible marine batteries certified to the most stringent international safety standards. Blackstone Technology is lowering the cost of manufacturing tomorrow"s 3D printed lithium-ion cells using state of the art active materials from Umicore. The University of ...

Find out what works well at Spear Power Systems from the people who know best. Get the inside scoop on jobs, salaries, top office locations, and CEO insights. Compare pay for popular roles and read about the team"s work-life balance. Uncover why ...

GRANDVIEW, Mo., May 4, 2020 - Spear Power Systems, Inc., a leading innovator in lithium-ion battery systems, has joined the Maritime Cluster Norwegian Centres of Expertise Maritime CleanTech. The Norwegian ...

The boldest ferry electrification effort in the U.S. will use American-made lithium ion batteries from Spear Power Systems, Inc on new Hybrid Electric ferries. Washington State Ferries is pursuing a groundbreaking initiative that will electrify a total of 16 new vessels and convert 3 existing vessels to plug-in hybrid electric propulsion by 2040.

Spear Power Systems Profile and History. Founded in 2013 by experienced energy storage entrepreneurs Jeff Kostos, President & CEO, and Dr. Joon Kim, CTO, Spear designs and manufactures safe, high performance energy storage systems (ESS) for clients with some of the world"s most demanding marine, industrial, and defense applications.

Grandview, Missouri, August 23, 2021 - Spear Power Systems Inc., a leader in the development and production of advanced energy storage solutions for demanding applications in a variety of defence/aerospace and industrial ...

The Marshall Islands sustainable energy development project includes 4MW PV power generation system, 5MW medium-speed generator set, 3.6MW high-speed generator set and 2MW/1MWh battery energy storage system, EMS energy ...

Spear is awarded an SBIR Phase I contract to support TARDEC"s 6T Battery Program; Spear Power Systems launches Trident(TM) Spear Power Systems Named in Inc."s 2020 List of America"s Fastest-Growing Private Companies; Spear Power Systems to Be Acquired by Sensata Technologies, Furthering Sensata"s Electrification Strategy; Spear Power ...

Spear Power Systems designs and manufactures safe, reliable lithium-ion battery storage systems for demanding applications including defense, marine propulsion, oil & gas, and mining. The company has a wide range of energy storage systems suited to meet any demand. Their family of TRIDENT maritime

batteries offers multiple cell chemistries in

Spear"s lightweight batteries power Raytheon"s counter-drone laser system for the U.S. Air Force, enhancing defense capabilities. Technologies. Batteries. Service Request. Cells. About Us ... Air Force Technology reports on Spear"s latest innovation in light weight batteries that is assisting Raytheon in the first counter unmanned aerial system ...
