A typical home rooftop solar panel contains up to 40 solar cells. There are two main types of solar panel cells: polycrystalline and monocrystalline. It"s important to understand the difference between the two, because your choice will ...

A typical home rooftop solar panel contains up to 40 solar cells. There are two main types of solar panel cells: polycrystalline and monocrystalline. It"s important to understand the difference between the two, because your choice will determine cost and amount of roof space your solar installation requires.

With SunValue as your trusted partner, you will have all the tools and support you need to make well-informed decisions about your solar energy transition. It"s a brighter, cleaner future, and it"s right at your fingertips with SunValue.

SunValue Co., Ltd. is a Taiwanese company dedicated to developing, manufacturing, and merchandising innovative green products, including "Temperature Regulator Film" and "Solar Power Brick". With great passion, the company endeavors to blend innovation into profession, creating the best value for the world.
