Suriname cogen europe

Suriname"s economy is small with public sector activities, mining and services being the major sectors. The agriculture sector and fisheries contribute a relatively small share of gross domestic product, averaging at about 5-7% annually.

Realising the potential of cogeneration in Europe will contribute significantly to reaching the strategic climate and energy goals, such as security of supply, energy efficiency and reduction of emissions.

The European Green Deal promises to deliver on a net-zero energy system by 2050, through higher ambition on energy efficiency, system integration and renewable energy. A study by Artelys finds that cogeneration is a primary enabler to achieve carbon neutrality in Europe by 2050.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. We have 56 members: 17 national associations and 39 corporate members spanning the entire value chain from technology manufacturers to ...

COPYRIGHT © COGEN 2020. | 13 Policy recommendations: Energy efficiency first o Prioritise high efficiency cogeneration for thermal energy production to maximise renewable energy use and reduce fossil fuel consumption and GHG emissions o Recognise role of high efficiency CHP in the "efficient DHC" definition by 2050, beyond 2035 (EED) 1

COGEN Europe brings together national associations and companies with an interest in cogeneration - from equipment manufacturers to end-users and consultancies. We currently have 55 members including 17 national associations and 38 corporate members.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business ...
