Is Ensol a French startup?
Ensol,a French startupserving the residential PV and home energy solution market,has raised EUR3 million in venture capital from Paris-based investors,Otium Capital,a fund that backs early-stage companies,and BetterAngle,a business angel group.

Can solar power be used for air-conditioning in Taiwan?
If solar power systems are installed on new buildings, or on existing buildings when their roofs are renovated, the feed-in tariff would reduce the cost of construction. Second, it would reduce the cost of electricity used for air-conditioning. In Taiwan's climate, the weather is mostly hot, which necessitates the use of air-conditioning.

Why should Taiwan invest in solar power?
Taiwan experiences many typhoons and earthquakes, and even faces the risk of being invaded by China. Solar panels coupled with storage equipment would serve as an emergency source of electricity for daily life or disaster relief if there is any problem with the electricity supply. Fourth, it would boost employment.
