Tesla solar roof Saint Helena

Is Tesla's Solar Roof a good option?

While it doesn't quite look like a regular roof,Tesla's Solar Roof is definitely more discreetthan traditional rooftop solar panels. If you're bothered by the look of solar panels on your roof (and are replacing your roof anyway),the Solar Roof is a solution. But it comes with a huge price tag.

Are Tesla Solar Roofs coming to your home?

The solar-harnessing tiles could be coming to a roof near you. The third-generation Tesla Solar Roof (aka, the Solarglass Roof) is here. Elon Musk's newest energy-saving shingles were announced in October 2019 and feature a design that looks nearly identical to a regular roof. But how much does a Tesla Solar Roof cost? And where are they available?

Are Tesla Solar shingles any good?

Tesla's solar shingles generate about 15.3 watts per square foot -- not the best,but certainly not the worst. Every brand of solar shingle comes with a wind rating,telling you what wind speeds your solar roof will be able to withstand. The Tesla Solar Roof can withstand wind speeds of up to 110 mph.

Does a Tesla Solar Roof have a warranty?

Tesla also requires the installation of at least one Tesla Powerwall battery with the Solar Roof. Your Tesla Solar Roof is well covered by three warranties. You'll get a 25-year product warranty,a 25-year weatherization warranty and a 25-year performance warranty.

What is a Tesla Solar Roof?

However,one of Tesla's newest solar innovations,the Tesla Solar Roof provides an alternative way to get solar on your roof,by making solar part of your roof. While it doesn't quite look like a regular roof,Tesla's Solar Roof is definitely more discreet than traditional rooftop solar panels.

How long does a Tesla Solar Roof last?

They have a warranty of 25 years. Tesla even made a video showing its Solar Roof surviving a two-inch hailstone moving at 100 mph. That's way better than regular old roof tiles hold up.

The Tesla Solar Roof also undercuts the cost of buying a roof and panels separately. Tesla says a 10-kilowatt roof in California will cost around $33,950, equating to $5.60 per square foot or $2. ...
