The Gambia r power renewables

Is re a solution to energy problems in the Gambia?
Policy makers across africa have been among the last to embrace Re as a solu-tion to their energy problems. They are often locked into crisis management on a day-to-day basis. The country's policy makers need to be persuaded that Re has a real futurein the energy mix of The Gambia. They need to demonstrate this by their actions.

Will re be a part of the Gambia's energy future?
The Gambia has already started this process by setting up a strong policy that includes Re as part of its energy future. it is in the process of building the institutional and legal framework that will help to deliver this promise.

Should Gambia invest in the energy sector?
Future investment only occurs if there is sufficient confidence that investors today are gaining good returns. The Gambia has an attractive investment environment in tourism and other develop-ment sectors. it needs to broaden this to the energy sector. That means building its own capacity to implement its policies to promote and support Re.

Does the Gambia have a wind-related energy project?
There is limited experiencein wind-related energy projects in The Gambia. much of the early work was restricted to village water pumping projects. in the 1990s,the Department of Water Resources (DWR) actively promoted the use of wind pumps along coastal villages with support from the eU.

Can solar water heating save energy in the Gambia?
Water heating is a major consumer of energy in The Gambia - mainly in hotels,clinics and some households. Significant savings can be madeif hotels and other large institutions are able to capitalise on the energy savings opportunities from solar water heating systems,which have been around for several decades.

Who owns a power plant in the Gambia?
These are operated by National Water and energy Company(NaWeC) and Global electric Group (GeG) - an independent Power Producer (iPP). effective installed capacity in The Gambia is around 65 mW. This is divided into two generation and transmission categories.
