TÃ¼rkiye ampion energy

What is ampion community energy?
Ampion began in 2014 in Bar Harbor, Maine with the premise that the future was renewable energy and that it would be available to anyone who wanted it. At the time, community energy was a new idea and more concept than reality. Today, much has changed.

Can Türkiye utilise its rooftop solar potential?
Türkiye can utilise its rooftop solar potentialto catch up with installation rates in EU countries and get on track to meet its clean energy targets. Rooftops in Türkiye have a technical potential of 120 GW and can meet 45% of the country's total electricity demand.

What happened to natural gas in Türkiye in 2023?
Consequently, Türkiye witnessed a reduction of approximately 50% in the cost of electricity generation from imported coal in 2023 compared to the previous year. The price of natural gas did not fall at the same rate, meaning natural gas lost its cost advantage over imported coal as of September 2022.
